ABOUT

I have extensive skills in drawing and animation. I prefer to work in pen and ink, but I do use photoshop in my illustrations. In my free time my hobbies include reading books and graphic novels and playing video games. I also love going to the cinema to watch a variety of films and going to see standup comedy on stage.

PREVIOUS WORK EXPERIENCE

April 2019- Panini Group

For six working days I worked alongside the design team for the UK branch of the Panini group which holds the licence for collectables of brands including the Premier League, National Geographic and Marvel comics.

The work that I produced whilst I was there was creating assets for pitches to their head offices in Italy and their clients.

July 2018- Graffiti Design

At Graffiti Design I worked alongside a group of carpenters and designers to manufacture individual numbers for a housing estate in London.

This included sanding the edges, priming them in chemicals, and then re-sanding the painted numbers before applying double sided high bond gel tape.

November 2016 - West End Studios

As part of a week internship with West-End studios I worked on the annual Christmas projection show for the general public named "Neon Noel".

This included working together within a team in a professional work environment, whilst under the direction of the producer and implementing the feedback he would give to us.

ACHIEVEMENTS

2015 - In Year 13 I won the school's prestigious 'Tony Russell' award. The award was presented annually to one student from each year group for exceptional achievement in the school year.

2012 - I also participated in the National Citizen Service (NCS) in which I helped out the local community.

2012 - When I was in Year 11 of secondary school, I was a subject prefect in the moving image production department which included Film and Media.
